

## **Invision Sally Jobe Joins Doctors For The Cure®**

*Leader in breast health, advanced imaging invites  
community members to join in Susan G. Komen fundraiser*

**DENVER, Colo. — September 14, 2010** — Invision Sally Jobe, a community-based provider of diagnostic imaging services, looks to lead the pack of pink once more this October as an official Komen Denver Race For The Cure® Team. The event will be held on Sunday, Oct. 3 at the Pepsi Center.

Radiologists from Invision Sally Jobe and Radiology Imaging Associates will join the HealthONE team in Doctors for the Cure®, a gathering of medical professionals during the Closing Ceremony. With this crowd of physicians, Komen Founder Amb. Nancy G. Brinker will welcome the wave of breast cancer survivors at the finish line.

Supporting a team means support for the Susan G. Komen Foundation's efforts to provide breast health education, breast cancer screening and treatment to uninsured and underinsured women and men in the Denver area.

Invision Sally Jobe will also have a team made of physicians, staff, patients and their families and friends. Team Captain Jennifer Dawson set a fundraising goal of \$7,500 for the team this year. It won't be an easy task, she said, but doable nonetheless for the radiology group that provides state-of-the-art breast screening, diagnostic exams and genetic counseling at its outpatient imaging facilities in the Denver metro area.

"We share a common mission with the Komen organization: to find a cure for breast cancer," Dawson said.

In 2009, more than 25,000 people participated in the Denver Race for the Cure. Team members don't have to participate in the same event on raceday: They may choose from the 5K Run, 5K Walk, the Family Walk, or even Sleep In for the Cure®.

The last chance to register for the run/walk is on race day. However, there will be a \$5 increase in the registration fee on race weekend, Saturday and Sunday. Join the team and register for this year's race by visiting [www.InvisionSallyJobe.com/RaceForTheCure](http://www.InvisionSallyJobe.com/RaceForTheCure) and signing up for team "Invision Sally Jobe."
